Everyone’s Got One: A Discussion on the Colon and How to Keep it Healthy

Presented at The Thompson Center by Dr. Ovleto Ciccarelli
Thursday, August 30, 1-2PM

Gifford Medical Center general surgeon Dr. Ovleto Ciccarelli will discuss colon and rectal health and common colorectal health issues. His discussion will further include how colonoscopies can prevent colon cancer from developing, diverticulitis and its complications, and routine anorectal topics, such as anal fissures and hemorrhoids. “The colon and rectum can cause numerous problems that may drastically affect one’s quality of life. Yet people are reluctant to talk about problems with their colon or their rectum,” Dr. Ciccarelli says. “But this is one area of medicine where we can actually prevent disease, extend lives and improve quality of life.” A compassionate, highly-respected caregiver who promises to infuse plenty of humor into the talk, Dr. Ciccarelli has been a general surgeon for more than 20 years. He has provided surgical care and colonoscopies at Gifford in Randolph since 2007 and serves as both medical director of the Surgery Division and chief of surgery.

Finding Our Families

Genealogy comes to The Thompson! Are you a fan of NBC’s Who Do You Think You Are? or PBS’s Faces of America? Have you made a start on constructing your own family tree, but you’re not really sure where to go next or if you’re “doing it right”? This series of three workshops, led by professional genealogist, Denise Picard Lindgren, will enable you to confidently reconstruct your family history, using both tried-and-true and state-of-the-art methods. Each two-hour workshop will include a presentation, as well as time for questions, and will be tailored to the needs of individual participants. $60 for all three workshops and accompanying workbook.

Free Introductory Session, September 6, 1:00-1:45 pm
For those who are interested in our new genealogical workshop series but are not sure if it is right for them. Come meet Denise and hear an overview of topics to be covered. There will be some fun group exercises, plus individual “quizzes” to challenge—and add to—your genealogical knowledge. Bonus: a short introduction to online genealogy, “Beyond Ancestry.com.”

Session 1: September 20th, 1:00 - 3:00 pm. “Look It Up.”
Genealogical records of all types are the basis of any family history. What are these records? (Hint: they go beyond birth, marriage, and death certificates.) Where and how do you find these records? What is available online—and what is not? You will learn the importance of using a research log and of documenting records as you collect them—as well as the importance of documenting the records you do NOT find. We will work largely with records found in the United States, but these basic research methods will benefit anyone who is interested in “doing family history.” If you have a laptop, please bring it with you.

Session 2: October 18th, 1:00 - 3:00 pm. “Sort It Out.”
Probably the most common mistake made by genealogists is with the question of identity. The Internet is replete with family trees that are populated with persons of the right name (perhaps) but the wrong identity. This workshop will help you use professional methods of analysis to steer clear of errors in identity—both egregious AND subtle. Don’t unwittingly trace ancestors that are not yours!

Session 3: November 15th, 1:00 - 3:00 pm. “Write It Down.”
Learn about the most popular software to record your genealogical research in a way that will stand the test of time for future generations. Building on the work done in the previous two workshops, you’ll learn how to record your genealogical research in a way that will be useful to family genealogists who come after you, so that they can build on your work rather than repeat it. This is NOT a how-to on word-processing software, but rather a discussion of what information is crucial for you to get down on paper in order for your work to endure—whether you use a computer, a typewriter, or pen and paper. This information is indispensable for ANY genealogist, whether or not you intend to write a formal family history.

Please sign up for this series in advance by calling 457-3277. A minimum of six participants is required. Cost: $60
We wish a fond farewell to board member, Peter Goulazian. Although Peter has contributed to The Thompson Center in many ways over the years, he filled the critical role of chair for the Executive Director search committee. He also helped to initiate a strategic planning committee and was instrumental in procuring the KIA and transportation sponsors. Peter, you’ve made an enormous impact here, and we’ll forever be grateful! You will be missed!

Hoping you are all enjoying this lovely summer. It feels like we’re making the most of it with so many wonderful group trips, beautiful garden tours, and BBQs. If you haven’t already, please join us for some fun!

Please contact me at 457-3277 or tsc-execdirector@comcast.net if you have any questions or suggestions. — Deanna

MARY TODD LINCOLN TALK, by C.J. King
Tuesday, August 7, 1 PM
C.J. King became interested in the Lincoln women when she learned she was related to them through the Harlan family. She wrote her master’s thesis on the subject and then expanded on the material to write her book, Four Marys and a Jessie: The Story of the Lincoln Women. Dr. Harold Holzer, the author or editor of 23 books about Abraham Lincoln, wrote the book’s introduction. He observed, “The Lincoln women have been woefully ignored by most historians, and deserve their day in the sun. At long last C.J. King has filled in many blanks with a history of the Lincoln—and Todd—and Harlan women across two centuries. C.J. King has been a professional writer and editor for more than 30 years.

TAE CHI - WIN, WIN, WIN
Wednesdays, September 5, 12, 19, 26; October 3, 10
More clinical evidence is confirming that tai chi is one of the best things you can do for your body, mind, and spirit. Tai chi movements help with body coordination, muscle tone, balance, and overall awareness. The mind is engaged in remembering, analyzing, and synthesizing a series of coordinated movements, resulting in improved concentration. The repetitive movements also calm the spirit—creating a sense of unity, individually and as a group.

It has been documented that Tai Chi helps reduce the symptoms of arthritis, fibromyalgia, joint pain and stiffness, as well as depression.

Tai Chi for Beginners, 9:30 - 10:30AM (dates above)
This class will learn the form known as "tai chi for arthritis", designed by a doctor and based on Sun style tai chi. The form is easy to learn and is appropriate for beginners and those needing review.

Tai Chi for Continuing Students, 10:40-11:40AM (dates above)
This class will continue to practice parts one and two of tai chi for arthritis and begin to learn Yang 24, the most popular tai chi form in the world. Yang 24 is the short, simplified Yang style designed by the Beijing Sports University. Adjustments can be made to suit participants.

TRIP TO THE FRYEBURG FAIR
October 2, 2012
Depart from The Thompson Center on Premier Coach Bus at 8:00AM

The Fryeburg Fair, Maine’s Blue Ribbon Classic, is celebrating its 162nd year with talented musicians and entertainers, performances in five different locations, a Waterwheel Park, a Christmas Tree Park, a Draft Horse Park, and a host of demonstrations and agricultural events. This presentation by certified UVM Extension Master Gardener Denise Picard Lindgren will inspire you to get back out in your gardens and enjoy them again. Denise will address issues such as:

- Are those half-price perennials really a bargain
- Do you know what you can—and should—plant now (including which veggies you still have time to harvest)
- Can you wait to plant bulbs right up until the ground freezes?
- Did you know that fall is the best time to improve your lawn?
- What fall activity is critical for those of us who want to grow vegetables organically?

Finally, for when you are ready to relax indoors, Denise will talk about some “armchair gardening” pursuits for the longer nights and cooler days of fall.

Cost: $45.00

How to Have a Spring Fling in Your Fall Garden
Tuesday, August 28, 1:00PM

When you hear “fall gardening” do you inwardly groan and think “cleanup” and “chores”? Do the weeds flourish while your flowers and vegetables are turning brown? It’s enough to make a gardener grab those last tomatoes, cut a few last flowers, and run inside! There really are interesting and fun things to do in your Vermont flower and vegetable gardens in the fall. Denise will address issues such as:

- Are those half-price perennials really a bargain
- Do you know what you can—and should—plant now (including which veggies you still have time to harvest)?
- Can you wait to plant bulbs right up until the ground freezes?
